Formed 190 million years while dinosaurs used to rule the world in Jurassic period, by cross-bending of sands, later by petrification of the sands, Coyote Buttes has been carved by wind into an unique landscape not found anywhere else in the world. It is very well named “the Wave”, and is under strict wilderness protection by Bureau of Land Management and lucky visitors with permits. I am sure your first reaction will be “unbelievably beautiful”, just like all the visitors do when they first arrive at

the Wave

石濤谷位於美國科羅拉多高原，其形成可追溯到一億九千萬年前恐龍統治地球的侏羅紀，基本上它是風積砂岩交錯層，經過億萬年的自然時空塑造，形成世界第一的特殊景觀。自從十餘年前被發現以來，石濤谷受到美國土地管理局嚴密保護，完全保持荒野原狀，每天只發極少張許可。欲申請者，可於七個月前申請。幸運進入此世界第一奇景之世界公民，亦極力保護此
